

**IN THE ABSTRACT:**

The Abstract as amended below with a replacement Abstract shows added text with underlining and deleted text with ~~striketrough~~.

Please AMEND the Abstract as follows.

A notebook computer that can support various frequency bands with an internal-type antenna. The notebook computer includes a display device-20 to display an image, a case-30 installed on the outside of the display device-20 and formed with an antenna groove-32 on a front side thereof, an antenna-40 provided in the antenna groove-32 of the ~~case-30~~, case, and a cover-50 attached to the case-30 and covering the front side of the case-30 housing the ~~antenna~~ 40. antenna. The case and the cover can be attached by a simple combining structure, to prevent and/or minimize the space and/or the gap that may occur when they are attached.
